

Claims

1. A communication device comprising:

a housing;

telecommunication circuitry located within the housing;

a lens located in a wall of the housing;

a source of illumination located within the housing and positioned to project a beam of light through the lens; and
a power source for the source of illumination in electrical communication with the source of illumination.

2. The communications device of claim 1 further comprising a switch in electrical communication with the power source and the source of illumination.

3. The communications device of claim 1 wherein the source of illumination is an incandescent light bulb.

4. The communications device of claim 1 wherein the source of illumination is an light emitting diode.

5. The communications device of claim 3 wherein the power source is a battery comprising nickel, lithium, silver, mercury, magnesium, lead, zinc, manganese, combinations thereof, or oxides thereof.

6. The communications device of claim 4 wherein the device is a cordless telephone.

7. The communications device of claim 5 wherein the device is a cellular telephone.

8. A power source unit comprising:

a housing;

a lens located in a wall of the housing;

a source of illumination located within the housing and positioned to project a

10 beam of light through the lens; and

a power source for the source of illumination in electrical communication with the source of illumination.

9. The power source unit of claim 1 further comprising a switch in electrical communication with the power source and the source of illumination.

10. The power source unit of claim 8 wherein the source of illumination is an incandescent light bulb.

20 11. The power source unit of claim 8 wherein the source of illumination is an light emitting diode.

12. The power source unit of claim 11 wherein the power source is a battery comprising nickel, ~~lithium~~, silver, mercury, magnesium, lead, zinc, manganese, combinations thereof, or oxides thereof.

5 13. A cordless telephone comprising the power source unit of claim 8.

 14. A cordless telephone comprising the power source unit of claim 12.

15. A cellular telephone comprising the power source unit of claim 8.

10

 16. A cellular telephone comprising the power source unit of claim 12.

17. A power tool comprising the power source unit of claim 8.

15 18. A radio comprising the power source unit of claim 8.
